

MARHO ERADIRI

PRINCIPAL WEB ARCHITECT

Web Architect with 10 years spanning web development, analytics, digital marketing, and design — grounded in Computer Science (39 credits) and a formal concentration in Human-Computer Interaction. I build WordPress and Drupal systems where accessibility, editorial workflow, and GA4 instrumentation are treated as one drawing set, not four afterthoughts. Django/Wagtail for rapid prototyping and headless CMS architecture.

A-01 WORK EXPERIENCE

- ◆

Independent Web Architect

Delivering high-fidelity prototypes & CMS integrations via Upwork

10/2025 — Present Remote

 - Designed and built 10+ fully-operational prototypes across legal, education, healthcare, sports, and e-commerce verticals — each with multi-step intake workflows, consent-gated submissions, eSignature integration, and industry-specific copywriting.
 - Developed a SPA-to-Wagtail CMS conversion pipeline enabling rapid deployment of static HTML prototypes into production Wagtail instances.
 - Active ecommerce prototype development targeting Shopify/Liquid integration, extending CMS architecture skills into the commerce platform space.
 - Full brand and e-commerce prototypes across 10 additional verticals: JoeyZaZa (hospitality), ElenaVoss (art), Hospital (healthcare), LabelNoir (apparel), AlpineVolt (outdoors), MerritHale (fine art), Mixed-By-Isolation (music), DizzaPizza (food), TerraAndKiln (craft), and StepDeck (web audio).
- ◆

Web Development Analyst / Web Designer

Casualty Actuarial Society

11/2021 — 10/2025 Arlington, VA

 - Designed low and high-fidelity prototypes focused on accessibility: ARIA attributes, keyboard navigation, and focus management across Drupal and WordPress properties.
 - Managed Drupal and WordPress vendor relationships — liaised with junior developers on execution and led R&D with senior engineers on architecture.
 - Spearheaded editorial workflow automation, reducing editorial handling time by 60% per release cycle. Composer-managed Drupal modules and WordPress patterns.
 - Implemented Google Analytics Dashboard API in WordPress; authored GA4 reports in Google Looker Studio.
 - Gained working knowledge of Git, CI/CD, and Docker Compose through Pantheon.io.
 - Provided cross-functional support between editorial, marketing, and IT departments.
- ◆

Webmaster

Special Olympics

06/2019 — 03/2021 Washington, D.C.

 - Managed Inclusive Health Center redesign and supported third-party development agency.
 - Responsible for regular analytics reporting via Google Analytics and Python.
 - Maintained and published content via proprietary CMS.
- ◆

Web Developer / Digital Marketing Specialist

American Road & Transportation Builders Association (ARTBA)

06/2017 — 12/2018 Washington, D.C.

 - Created, designed, and managed WordPress websites leveraging HTML, CSS, and JavaScript.
 - Tracked, analyzed, and reported via Google Analytics and Google Tag Manager.
 - Managed SaaS tools: MailChimp, Zapier, Eventbrite.
 - Liaised with staff and external stakeholders gathering requirements for web projects.
 - Managed A/V and PPC campaigns for events and conferences.

A-02 EDUCATION

B.S. Psychology / Human-Computer Interaction (HCI) George Mason University <i>Computer Science: 39 credits completed</i> May 2017

A-03 SKILLS

DISCIPLINE	INSTRUMENTS & METHODS
CMS	WordPress (plugin development, Composer), Drupal (module development), Wagtail/Django (rapid prototyping, headless CMS)
FRONTEND	JavaScript (async), Jinja, Twig, Liquid, Nuxt, Vite
ARCHITECTURE	MVC/MVT, editorial workflow design, multi-property publishing estates
ANALYTICS	Google Analytics 4, Google Tag Manager, Looker Studio, GA Dashboard API
DESIGN	Adobe Illustrator, Adobe Photoshop, accessibility-first design (WCAG, ARIA, keyboard navigation, focus management)
DEVOPS	Git, CI/CD, Docker Compose, Pantheon.io
